I GAVE YOU A PRESENT! YOU KNOW HOW YOU SAID YOU WANTED TO TRANSFER TO A DIFFERENT SCHOOL?

SO I LOOKED INTO IT, AND THERE'S A SCHOOL CALLED SPECIALIZED COMBAT PRIVATE ACADEMY!

THINKING

IT SOUNDS INTERESTING SO I LOOKED IT UP, AND YOU GOT TO LEARN SPORTS AND COMBAT IN SCHOOL. WHAT DO YOU THINK?

OP-1884P2

IT'S A BIT OUT THERE IN THE BURN AREA, BUT THEY HAVE DONE SO... IT SOUNDS GOOD, DOESN'T IT?

OP-1885

CALL THEM ABOUT IT...

IF YOU LEARNED SOME COMBAT SKILLS YOU WOULDN'T BE AS MUCH FUN OF FOR PICKING ON ANYONE, AND...

I was sick of getting beaten up and doing everything my classmates told me to do. So even though I was scared of learning combat skills, I thought the transfer in itself would be worth it.

But...

IF YOU WANT TO DIE.  
THEN DIE FIGHTING.

After the match...

That's right... Mr. Seagal said to bring Butterfly back with me when he woke up. And then...

Oh, the cat that came out of nowhere! ...that cat had attitude problems...

He was holding some letter... Oh and I don't really know why but I didn't like him very much...

There was something strange written on it...

Yeah! I remember! That's right!!

Yeah... That's when I lost consciousness...

Hmm... Well...

A long time ago, when  
Geokji-do, along with this  
school, was founded.

...There existed three  
great warriors, with  
powers rivaling those  
of gods.

First among them was a man with  
a body like steel. He was a master  
of strengthening techniques and  
close-combat Geokji-do.

BA  
ET

DUM  
UHO

His movements were like a storm in motion, his punches, loaded with the power of vibration, exploded his enemies into fragments of fluff.

And then they called it

2010 00-0000

*'Fluffy'.*

THAT'S A FRIENDLY  
SORT OF NAME...

The second was a woman, the  
first to command long-distance  
Gougi-do. Her attacks made  
use of atmospheric oscillation.

She cut quite a  
striking figure...

...UM... ARE YOU OKAY?  
BUT YOUR FACE HAS  
GONE RED...

Anyhow... Her powers of vibration were  
not strong, but they were sensitive  
enough to resonate with the air

\*NOTE: THERE IS A FAN THEATRE HISTORY WITH OM

The third and last was known to use an unusual technique that turned the vibrations of the opponent back on them.

His technique proved even more effective against stronger opponents.

## GEIKU-DO RESONANCE-RSU

Countless opponents were frozen before the power of his Geiku-do, their movements retarded.

He's glad I expected him  
to be more shocked.  
(I haven't seen it in him,  
but perhaps he has an  
infectious 'going for

As wants 'going for

AND NOW EXACTLY DID HE REMODEL THE CHAIR...?

WELL, FROM THE PATTERN OF THIS PARTICULAR VIBRATION IS VERY SIMILAR TO THAT OF A HUMAN HEARTBEAT...

# UNVEILED: THE INITIAL CHARACTER DESIGNS OF GEUKJI HIGH!

Yabai Yagi

This is the original image of Student  
Leader Group Head Lee Sunin

I decided too much of him was  
overlapping with other games and  
movies, so I changed his face to the  
one he has now, and replaced his  
clothes with a black  
kimono.

He lost his star-printing  
face, but gained totally  
violent sideburns,  
overbearing smug,  
and just a speck of  
maturity.

This is the original character design for Lee Yoonseun, although it looks nothing like the finished version. The name comes from someone I once really gratitude to.

Oldman Huh is very fond of older women who look good in trackouts, so there were personal reasons for this design.

In the end the eyes went to Park Seung, the fringe to Yoon Min, and the trackout pants to His age. After Yoonseun gave them all away, she gained a heart-shaped head and a strong chest.

This is a design I want to reuse someday.

By the way, this is irrelevant, but I want to spend this coming Christmas with a woman who looks good in a trackout.

But I know I'll be spending it drawing manhwae instead.

Maybe with a cat who looks good in a trackout.

The original character designs for the main character

I know half of you don't even remember his name. Sorry you all.

It's Kang Chul. Please don't forget it, M.

Even the Gash! High man thumbnail picture is Lee Seun, not Kang Chul. M.

This is the Kang Chul I first thought up. He was discarded because I thought it would be too creepy to have him draw like this. The main character does affect the tone of the manhwae, even if he's less noticeable than a pair of pigeons.

This one had a cool, laid-back personality like the typical protagonist of a shounen manga. But in the end I decided the face would also look creepy while drawing.

I don't like creepy things. Oldman Huh is very delicate like a cat.

Anyway, that's how we get the retarded, misfit-mouthed main character we have now.

Initial design for the principal I love stuff like this, hehehe. But I thought the eyebrows might go totally off track if I didn't restrain myself, so I gave him slightly better brows

When you get older, you'll be able to exercise magnificent restraint like Shinnou-kun!

But somehow I still can't restrain myself from watching you

Life is hard...

I even thought of giving him a double personality and a face like the one, but it made him sort of irritating then.

The grandfather took the fringes, in the end

That's it for today. I'll save the others for another chapter!

Geukji-do is a martial art which makes use of the vibrations within a human body.

It is categorized into three basic disciplines: close-combat, long-distance and special-attack. Geukji-do.

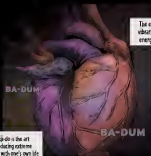

However, since its founding, the techniques have become many and various - enough that the initial categories have long lost their meaning.

As time passes, it is becoming increasingly common to follow a style of fighting which involves strengthening one's own specialties with the power of vibration, rather than following the art of Geukji-do itself.

The reason for this is the tremendous risk involved in using the power of vibration.

The energy of vibration is the energy of life.

Geukji-do is the art of producing extreme strength, with one's own life force as insurance.

Ever since this school was founded and students began to learn Geukji-do as a compulsory subject, there have been countless accidents.

Injuries or deaths due to violent battles were not infrequent, but far more common were severe injuries sustained in the use of Geukji-do itself.

**THOK**

The power of vibration is mighty enough to cause overwhelming destruction without using the athletic parts of a human body - such as the muscles or the bones.

But the weakness of Geukpi-do is the receding energy caused by the vibrations.

Vibrations that are stronger than one's physical ability come back into the body as heat and shock.

BA  
易觀光

DUM  
易觀光

In the jargon of Geukpi-do, this self-destructive phenomenon is called...

易觀光

THAT'S THE SOUND.

The obvious method is to absorb the shock of Counter-Strike by increasing your muscle mass—  
However, this method has its limits. The biggest problem is that even if you can block the shock of vibration, you cannot stop the accompanying heat.

Thus, the best means of alleviating the shock and the heat is...

It would not be exaggerating to say the amount of moisture in a human body equals the talent one has at Geukji-do

IN THAT ASPECT,

YOU HAVE MORE NATURAL TALENT THAN ANYONE I HAVE EVER SEEN IN MY LIFETIME.

The  
boat would have  
sunk by now...

Is he  
exceedingly terrified  
or just an idiot with  
enormous?

The engine's RPM  
gauge has already gone into  
the red zone.

148 mm

200 mm

Is his gift as great that it cannot be combined with these vibrations alone?

The engine is reaching its limit. This is dangerous, but I have no choice.

HANG CHUL: HE ADULTS HAVE OUR DISCORD FOR TAKING A SHORTCUT WITH YOUR TEACHING, INSTEAD OF ALLOWING YOU TO TAKE THE REGULAR CLASSES.

SINCE YOU'RE TAKING A SHORTCUT ANYWAY, LET ME TEACH YOU SOMETHING INTERESTING, A LITTLE EARLY.

IF ONE CAN COMBINE THE POWEREDNESS AND FLOW OF EACH VIBRATION PERFECTLY,

ONE CAN HARMONIZE THE VIBRATION, COMBINE THEM TO PRODUCE AN EVEN MORE VIBRANT VIBRATION.

THIS IS AN UNEXPECTED RESULT.

EVERYONE LOOKS CURIOUS... I SHALL EXPLAIN WHY THIS HAPPENED.

YOUR FACTS TELL ME THAT YOU'RE ESPECIALLY CURIOUS ABOUT THE MUSCLE DEFENSES WHICH ARE AKA THE STRONGEST OF STRENGTHENING TECHNIQUES

YOU ALL KNOW, OF COURSE, THAT BUDDHA DOES NOT USE THE STRENGTH OF BONES OR MUSCLES. INSTEAD, IT ACCIDENTALLY STIFFENS THE BODY TO PRODUCE VIBRATIONS

eg. Lee Bowson  
Shaped the joints of your body to have a network of the kind of vibration to feel, manipulating the muscular power of aortal body

Thus, it differs from conventional images of Senjū-ō, which add the power of vibration to other techniques

She then uses her specialty, a grappling move, with her elongated limbs

The danger of counter-strike is reduced, because the attacker's base has been moved, not the vibrational power

Buddha purely uses the power of vibration. The user must fully accept the dangers of counter-strike.

IT'S ASTOUNDING THAT HE WAS ABLE TO STOPPER HIS BODY AT EXACTLY THE RIGHT TIME... BUT THAT'S NOT THE MAIN ISSUE!

THE SHOCK OF COUNTER-STRUCK CAN BE PARTIALLY ABSORBED BY TAPPING YOUR MUSCLES TO REDUCE THE VIBRATIONS OF THE BODY...

WHEN... MEANTO I DON'T GET IT... BUT IS IT OKAY?

HEY GANDORF, ARE YOU SURE? SHOULD I HELP YOU OFF?

IS IT POSSIBLE THAT THE VIBRATION OF A BODY WITHOUT GETTING COUNTER-STRUCK WITH AN OUTWARD BODY WAS...?

*It's amazing enough that he's using Baki-do without receiving a single lesson... Where on earth did he come from?*

And look, he even has the guts to get on a taller opponent!

It is finally time  
to show off what I've  
been practicing!

→ ← U + RP

STOP HARKING  
ALL LIMP LIKE A SQUID,  
AND LISTEN.

Now, my type of attack...

...involves controlling the vibrations of the heart,  
thereby increasing blood flow to a certain body  
part and strengthening the muscles.

Then I use the strengthened  
muscles for my specialty  
skill, grappling.

It's a passive skill, since I  
don't use the power of  
vibration directly to attack.

Sanghoon's style is simple.

He uses an external impact to maximize the vibrations in his body, converting calories into kinetic energy.

But you're different.

If we had to categorize you, we'd put you in the Active category along with Mr. Bruce-Bark.

Even by approaching techniques of dramatic change, becoming a character is a hard job.

You attack directly with the power of vibration.

When the power of vibration is put into an attack, the destructive power and penetration of the blow can be improved by concentrating

but vibration is not enough. It's out — the body is not enough. Next possibility is... but the reality is...

I put on an invisible... around your vibrations on your nipples... and you produced destructive power far beyond the capabilities of human life.

AGAIN!

THEY REALLY ARE HERE COME THIS.

I WANT WANT IT'S THAT ARE FINE AND RELATE AND REALLY GREAT!

I REMEMBER SAID THEY WERE OLDS...

It's just like last time.  
The sudden tearing of my muscles.

DOES THIS IT?

The specific body part isn't what matters.  
The flow of vibrations can be manipulated

My nipples just

contact to amplify  
the vibrations!

Maybe I should  
have thought of a

But whatever, this

I will no longer rely on my nipples alone.

I am not a squid.

I've been...  
reading the  
comments...

and there were  
more spoilers than  
I expected....

HAHAHA YOU  
ROCK! SPOILERS!

you think it's enough  
to tell what happens  
just 3-4 chapters  
off, aren't you...?

**DON'T BELITTLE THE SPOILERS!!**

**A MAN'S SPOILER!! I'LL  
SHOW YOU A DIFFERENT  
SCALE!!**

**Spoiler for chapter 52!!!**

Hey Varren.  
Listen to me.

12nd chapter frame of Oda.  
A frame where he's talking with a transfer  
student from India, Varren Williams.  
You can notice the difference in his body.  
There seems to be one part that hasn't changed  
but that's not important.

I've...

## ***RESONANCE***

A vibration of a definite frequency being amplified by an external vibration. When those vibrations' frequencies match, the resulting phenomenon is known as 'resonance' and the corresponding frequency as the 'resonance frequency'.

Hi, I'm  
your friend  
***Finky.***

When an external vibration with the same frequency as an object's own vibration is applied, that power is augmented anywhere from a few to several thousand times.

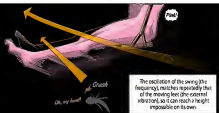

A high-pitched voice scarcely has power on its own, but when its frequency matches that of a glass, the glass breaks.

We can easily find examples in daily life, and they are used frequently

When we are on swings, we move our feet toward where the swing is heading.

The oscillation of the swing (the frequency), matches repeatedly that of the moving feet (the external vibration), so it can reach a height impossible on its own.

But resonance can be dangerous sometimes

On November 7th, in 1940, the Tacoma Bridge in the state of Washington generated vibration with the wind blowing at 65 km per hour. This vibration created a resonance, provoking the bridge's collapse only 4 months after its opening

The Tacoma Bridge had been designed to withstand a 190 km per hour gale, and there was only a breeze on the day of that mis-

What happened with
